Justice Simms, who was sitting in Essex Market Police Court and committed Bennett to the Tombs, was early at the District-Attorney's and Coroners' offices to-day. He was angry clear through at Coroner Schultze, and denounced the latter as the one solely responsible for Bennett's eighty-six days in Jall.

With Mrs. Matilda Hermans, former proprietor of one of the most no houses of ill-fame in the city. as the star witness, to-day's session of the Lexow Committee gave promise of some of the most startling disclosures of pe blackmailing that have yet been brough out by the Senate investigation.

Every one is familiar with the of her escape from the city last sep-tember, when the subpoens-servers of Mr. Goff were looking for her, and how she was traced from the control of the con where she was found living with a colony of New York disorderly house keepers, who had been induced, presumably by the police, to leave this city, and were awaiting the final adjournment of the Lexow Committee to return here and resume their business.

sylvania Depot in Jersey City, the officers of the Senate Committee were arrested on a trumped-up charge of kidnapping and every device of the law was employed to prevent Mrs. Hermann from coming to this city.

For more than a week she was a prisoner there until yesterday afternoon she was discharged from custody and appeared voluntarily before the Committee, ready to tell her story.

But it was too late in the day to put her upon the stand, and her testimony was reserved for this morning. She passed last night at the Hotel Jefferson, in East Fifteenth street, under the protection of the ergeant-at-arms of the Committee, and guarded by five officers and with the assurance of the Chairman Lexow's warning that any conflicts and with the assurance of the Committee to approach her or to dissuade her from testifying would be prosecuted for felony she was not disturbed.

It is said that Mrs. Hermann had documentary proof of her dealings with the police, and that her papers and books were all in the trunk which she brought with her from Chicago, but when the control of the police, and that her papers and books were all in the trunk which she brought with her from Chicago, but when the control of the committee of the police, and that her papers and the brought which she brought which her dealings with the police, and that her papers and the prought with her from Chicago, but which he musicularly diagnostical the propers and the propers are the propers and the propers an

Lawyer Emanuel Friend was in attendance with a subpoena. He said he had formerly appeared as counsel for Mrs. Hermann when she had been arrested.

There was another quarter of an hour of suspense, when Mr. Goff stroiled leisurely in. He was asked about the story of his attempted assassination, but laughingly said that he regretted it was ustrue for the sake of some of his journalistic friends. He didn't seem in any hurry to begin, but sat and chatted with the Senators.

Priceman Michael Joseph Cooney, who den'ed that he had kissed Mrs. Hermann good-by when she left New York, or that he had received a gold watch and other lewelry from her, had been summoned as a witness. Mr. Goff had seen him wandering about the corridor.
